

Building Energy Rating (BER)

BER for the building detailed below is:

B2

2R Plastics
Ballina Road
Tubbercurry
Co. Sligo

BER Number: 800010332
Building Type: Industrial process building
Useful Floor Area (m²): 1904
Main Heating Fuel: Oil
Building Environment: Heating and Natural Ventilation

The Building Energy Rating (BER) is an indicator of the energy performance of this building. It covers energy use for space heating and cooling, water heating, ventilation and lighting, calculated on the basis of standard operating patterns. It is accompanied by a CO₂ emissions indicator. These indicators are expressed as respective ratios of primary energy use and CO₂ emissions, relative to what would apply for a similar building generally satisfying the Building Regulations 2005. 'A' rated properties are the most energy efficient and will tend to have the lowest energy bills.

Date of Issue: 19 Jun 2009
Valid Until: 18 Jun 2019
BER Assessor No.: 101161
Assessor Company No.: 101160
Assessor Scheme: SEI Interim AS

IMPORTANT: This BER is calculated on the basis of data provided to and by the BER Assessor, and using the version of the assessment software quoted above. A future BER assigned to this building may be different as a result of changes to the building, its use or the assessment software.

The less CO₂ produced, the less the building contributes to global warming.
